Subject: Re: [Mid-MOF] Epee Addendum

Greetings!

Group Marshals in the Midlands are directed to print/copy this post and include it on their rules books. Please distribute this info to all your fencers.

[copied from another email]

Some additional thoughts.

Since it takes 2 to do an authorization, I leave it up to the Regional to select the most experienced marshal available to assist in running the epee authorizations.

[snip]

We will at least be competent (and safe) when we go out of kingdom.

Epee will NOT be the first auth, but it can be the second auth.

I recommended that each fencer should be checked out in all forms with the epee that the fencer desire to use. (DGR, RP, NRP, Case). It's a good safety check but I am not requiring that all forms be fought. Just highly recommended.

Again, I leave it up to the MiC to determine the extendt of each auth. Some people will probably be quickly re-auth'ed, others my need extensive analyzing.

Epee auths will not be freebies. They will be real auths.[snip]

Be sure to inspect the blades for rust.[snip]
